

# **CURRICULUM VITAE**

**DAVID DE CAMILLIS, D.C.  
FCCPQR, Dip. MDT.**

---

I graduated from the Canadian Memorial Chiropractic College in 1977. I am an active member in good standing with both the Canadian Chiropractic Association and the British Columbia College of Chiropractors. I've maintained a full-time practice in New Westminster where I've seen over ten thousand patients.

I've been conducting seminars on end range loading since 2003. These seminars have been approved for CE hours by The College of Naturopathic Physicians of BC, the BC College of Chiropractors, the College of Traditional Chinese Medicine Practitioners and Acupuncturists of BC, and the College of Massage Therapists of BC and Ontario. I have a web site containing references, procedures and explanations supporting this treatment. [drdavedecamillis.com](http://drdavedecamillis.com) is ancillary to the seminars. I've lectured at the West Coast College of Massage Therapy in New Westminster and I act as a preceptor for fourth year naturopathic students at the Boucher Institute of Naturopathic Medicine, also in New Westminster, BC. I have an instructors agreement with the Massage Therapist's Association of British Columbia.
